

From the Desk Of:

Major Albert L. Ottinger III
Custody Operations
Montgomery County Correctional Facility

Norristown, Pennsylvania

Date: 09 June, 2008

To: David Nance, VP of Sales and Marketing
From: Maj. Albert L. Ottinger III, Certified O.C. Instructor
Re: Product Evaluation, Sabre Red

As an Oleoresin Capsicum Aerosol Instructor, I have been involved with this technology since its onset in the Corrections environment for over 15 years. Since this time, I've had the opportunity to deploy a variety of O.C. products in countless conditions and circumstances.

Since being introduced to your product, namely "Sabre Red" approximately one year ago, our facility has added two additional "Sabre" certified O.C. instructors to our training cadre. This says a great deal in regard to the success we've experienced with your formulation and the immediate effect it displays in subduing hostile or aggressive inmates.

Being one of the larger Correctional Facilities in the Commonwealth with an average daily headcount of 2000, and bordering Philadelphia County to the east, we encounter many dangers and problematic inmates on a constant basis. The advent and adoption of O.C. has been a godsend and has prevented many officers, supervisors and support staff from sustaining substantial injury. Sabre Red has brought the confidence of our corrections professionals to a much higher level and has nothing but praise for Sabre products, especially when compared to the observed effectiveness of O.C. products we've used prior. We will continue to issue and utilize Sabre O.C. aerosol products. After witnessing first hand the positive attributes and effectiveness of Sabre Red, I would be committing a disservice to those men and women within my charge by equipping them with a lesser technology.

Respectfully,

Albert L. Ottinger III, Major

SABRE

Evaluation Questionnaire

(To be completed by the person who conducted the T&E.)

1. Please provide your contact information (Include phone, fax, e-mail and a

BUSINESS CARD ATTACHED

2. What defense spray specifications or preferences does your agency have?

OUR ORGANIZATION DEPLOYS A VARIETY OF O.C. DELIVERY SYSTEMS AND CARRIERS DUE TO NUMBER OF UNIQUE SITUATIONS ENCOUNTERED IE SEMI-STREAM-GON. PURPOSE, FOAM/GEL-COOL ENTRY, TOWER

3. What is the exact model number of the product that was tested?

062907 - M1

1171070

4. Please comment on the delivery system (Distance, Velocity, Pattern).

ACCURATE/CONTROLLABLE VELOCITY IS SUBSTANTIAL W/ LITTLE CONCERN FOR "NEEDLE EFFECT." DISTANCE IS SUFFICIENT AND ON PAR WITH OTHER REPUTABLE OC PRODUCTS W/ SIMILAR CHARACTERISTICS

5. Please comment on the visualization process (natural OC pigment).

DISTINCT COLORATION ENABLES USER TO INCREASE AND ASSURE ACCURACY, ALSO PROVIDES A MARKING/PSYCHOLOGICAL ENHANCEMENT.

6. Please comment on the deployment versatility (ability to fire upside down).

DEPLOYABLE IN A VARIETY OF SITUATIONS FROM MULTIPLE POSITIONS THAT AN OFFICER MAY FIND THEMSELVES IN AWKWARD PLACES, ETC.

7. Did you apply a direct application to anyone? Please elaborate on your findings either way.

YES - UNDER CONTROLLED TRAINING CONDITIONS AND ACTUAL

USE OF FORCE YOU ENCOUNTERS - NOTABLE INCREASE OF OVERALL EFFECT PAIN IS REPORTED TO BE (AND APPEAR) GREATER THAN COMPARABLE OC PRODUCTS.

8. What are your thoughts on the HPLC Lab which provides consistent heat level with each can?

PROVIDES AN ADDITIONAL LEVEL OF USER CONFIDENCE THAT EFFECTS WILL BE CONSISTENT.

9. How does this product compare to your existing spray? Which do you prefer?

COMPARES MUCH MORE FAVORABLY DUE TO THE NOTABLE INCREASE OF EFFECTIVENESS AND ABILITY TO QUICKLY SUBDUCE HOSTILE Y.M.

10. Which product will your agency be purchasing with its next order?

SABRE RED

PLEASE FAX THIS TO DAVID NANCE @ 1-636-343-1318.
