

BEAR BELL WITH MAGNETIC SILENCER

BB-01-XX

What does the SABRE® Bear Bell do?

- The Bear Bell is designed to help alert wildlife—especially bears—of your presence when hiking, camping, or exploring the outdoors. The ringing sound helps reduce the chance of surprise encounters. This model includes a magnetic silencer, allowing you to quickly and quietly silence the bell when not needed.

How to use the SABRE® Bear Bell:

Step 1: Attaching the Bell

1. Open the hook-and-loop strap (See Image 1).
2. Wrap the strap around a secure location (e.g., backpack loop, belt, etc) (See Image 2).
3. Press the hook-and-loop ends together firmly to hold the bell in place.

Step 2: Activating the Bear Bell (Silencer Not in Use)

1. Pull the bell gently away from the magnetic silencer so it can move freely.
2. The bell will jingle with your movement, alerting wildlife to your presence.
3. Secure the magnetic silencer to the hook-and-loop section at the top of the strap when not in use (See Image 3).

Step 3: Silencing the Bell (Silencer In Use)

1. Bring the bell into contact with the magnetic silencer (See Image 4).
2. The magnet will hold the metal bell in place, preventing it from ringing.
3. Use this mode when you're at camp, in quiet zones, or when noise is not desired.

Maintenance & Care:

- Wipe clean with a damp cloth after outdoor use.
- Dry thoroughly before storing to prevent rust.
- Keep away from strong magnets or electronic devices to avoid interference.
- Inspect the strap periodically for wear and replace if frayed.

⚠ WARNING

- This bell is **NOT A GUARANTEE** of safety against wildlife encounters - always practice proper outdoor safety and remain alert.
- **KEEP OUT OF THE REACH OF CHILDREN.**
